

Shoo Fly Quilt Block:

Block will be 12 1/2" X 12 1/2" when completed.

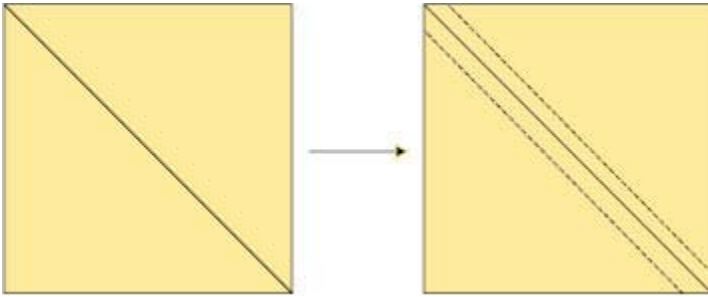

Start with one central color or pattern, add full squares and triangle squares to make the full block.

Here's how: Block Center (shown as yellow): one 4 1/2" square

Coordinating print: four 4 1/2" X 4 1/2" squares

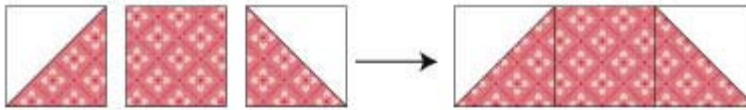

Triangle squares: two 4 7/8" X 4 7/8" squares in coordinating print and two in neutral color.

Make the triangle squares as follows:

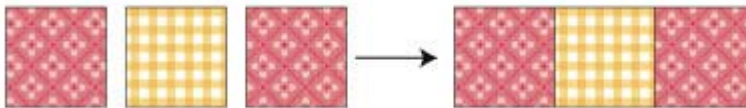

Draw a line from corner to corner, then sew two squares together 1/4" on each side of the line.

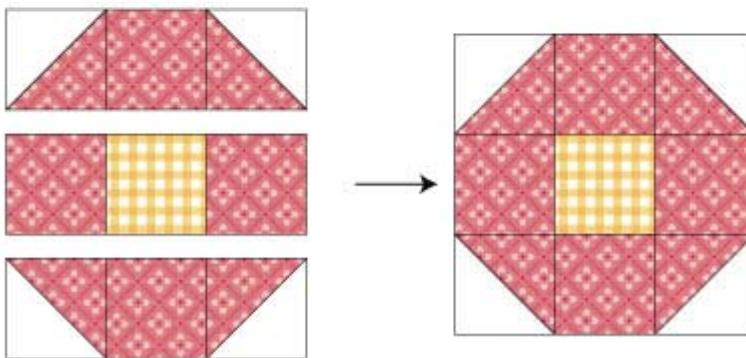

Put the rows and strips together as follows:

Make 2

Make 1

Make a bunch of these, they do not have to be all the same. You can put them together with solid squares, sashing or sewn together as is. This is a great scrap quilt project!
